With an expert faculty, a caring staff, enthusiastic volunteers, the Center for Musical Arts offers many ways to be musical – for a lifetime!

## About Center for Musical Arts

The Center for Musical Arts is a community music school founded in 1995 with a vision of access to music for everyone. We provide musical learning and experiences for people of all ages, backgrounds, abilities, and financial circumstances. When people study or play at the Center for Musical Arts, they become part of our musical community.

## Educational Philosophy

Teaching at CMA is student-centered, meaning that musical growth and learning is tailored to individual students, incorporating personal learning styles, goals, and musical leanings. Our skilled and versatile faculty are able to work with students of all ages, including those just starting out on an instrument or voice; adults who choose music as an avocation, and students who are preparing for a career in music. CMA faculty are highly trained and expert on their instruments; most are active performers throughout the Front Range and beyond.
